

Visitor Notice

Social Distancing

We are very closely monitoring the COVID-19 situation at the national and local levels. Presently, we know that there has only been one measure that's been effective against the coronavirus so far: social distancing.

During this difficult and uncertain times, we are forced to make difficult decisions about how we responsibly and ethically conduct ourselves in our day-to-day lives. It's with an abundance of caution that we ask you to please consider our tenant population as you enter the building. If you are exhibiting ANY flu-like or Respiratory Symptoms, we ask that you please DO NOT come in and visit.

Our goal, at this time, is to allow our tenants to accept visitors, however, if we find that people are entering whom we hear or see with any symptoms, you may be asked to leave.

Thank you for understanding during this time.

The Management Team
